

### Applications

Easily programmable to adapt to a variety of asset and animal tracking applications.

These trackers are ideal for near real-time location tracking applications that are event driven requiring very long battery life.

The trackers can wake on a variety of events, collect and report location, temperature, and other information.

The CT1021 incorporates mounting flanges to enable secure attachment.

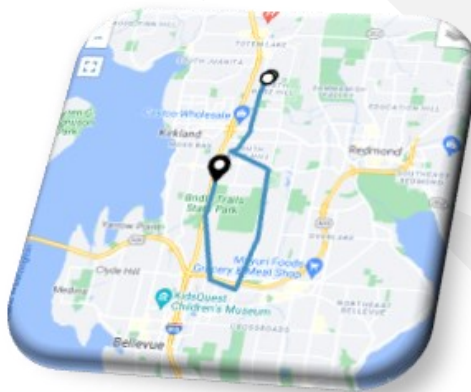

*Highly configurable trackers are easily adapted to support a wide variety of use-cases.*

- ◆ Workplace security
- ◆ Warehouse Logistics
- ◆ Smart Home/Building
- ◆ Pet tracking
- ◆ Distribution Tracking
- ◆ Equipment Locator
- ◆ Family Safety Net
- ◆ Vehicle Recovery
- ◆ Animal Tracking
- ◆ Shipment Verification
- ◆ Transport Handling Compliance
- ◆ Infrastructure Monitoring
- ◆ Trip Logging

### CT1020 Micro Tracker

#### Features & Specifications

- ◆ LoRaWAN Class A/C communication
- ◆ Wi-Fi / BLE based 3-D positioning
- ◆ > 5,000 locates per charge: 60+ days at 80 locates per day
- ◆ 1MB message caching when out of network
- ◆ 3-axis vibration, shock, and impulse detection
- ◆ Temperature sensor
- ◆ Water / Shock resistant: IP67 compliant
- ◆ Light weight (15gm) and versatile form factor
- ◆ 1.97x 1.02 x 0.47 inches (50 X 26 X 12mm)
- ◆ 48K Flash / 4K RAM application scripting engine
- ◆ Rechargeable Li-ion battery
- ◆ Magnetic charging contacts

### CT1021 Micro Asset Tracker

#### Features & Specifications

- ◆ LoRaWAN Class A/C communication
- ◆ Wi-Fi / BLE based 3-D positioning
- ◆ > 5,000 locates per charge: 60+ days at 80 locates per day
- ◆ 1MB message caching when out of network
- ◆ 3-axis vibration, shock, and impulse detection
- ◆ Temperature sensor
- ◆ Water / Shock resistant: IP67 compliant
- ◆ Light weight (15gm) and versatile form factor
- ◆ 2.6 x 1.02 x 0.47 inches (66 X 26 X 12mm)
- ◆ 48K Flash / 4K RAM application scripting engine
- ◆ Integrated mounting flanges
- ◆ Rechargeable Li-ion battery
- ◆ Magnetic charging contacts
